

Janet is a young professional currently working at Health Canada as a policy analyst. Her work with the federal government includes policy and program delivery with a particular focus on policy issues that pertain to women in STEM, gender equality, diversity and social inclusion.

Prior to joining the federal government Janet worked with Manitoba Housing conducting research that would inform the future of social and affordable housing. She also worked with Manitoba Public Insurance, a non-profit Crown Corporation, delivering the high school driver education program.

Janet is applying for a Director position with CAPE in order to make a positive contribution to the growth of the union as it represents and defends the interests of its members.

Janet holds a Bachelor's Degree in Sociology & Philosophy from the University of Manitoba and a Master of Arts in Public Policy & Public Administration from Concordia University (Montréal).

Janet identifies with she/her pronouns.
